

Measurement of Online Video Audiences

Dr Silvia Pfeiffer
Vquence Pty Limited
Sydney

Why measuring video usage?

Imagine...

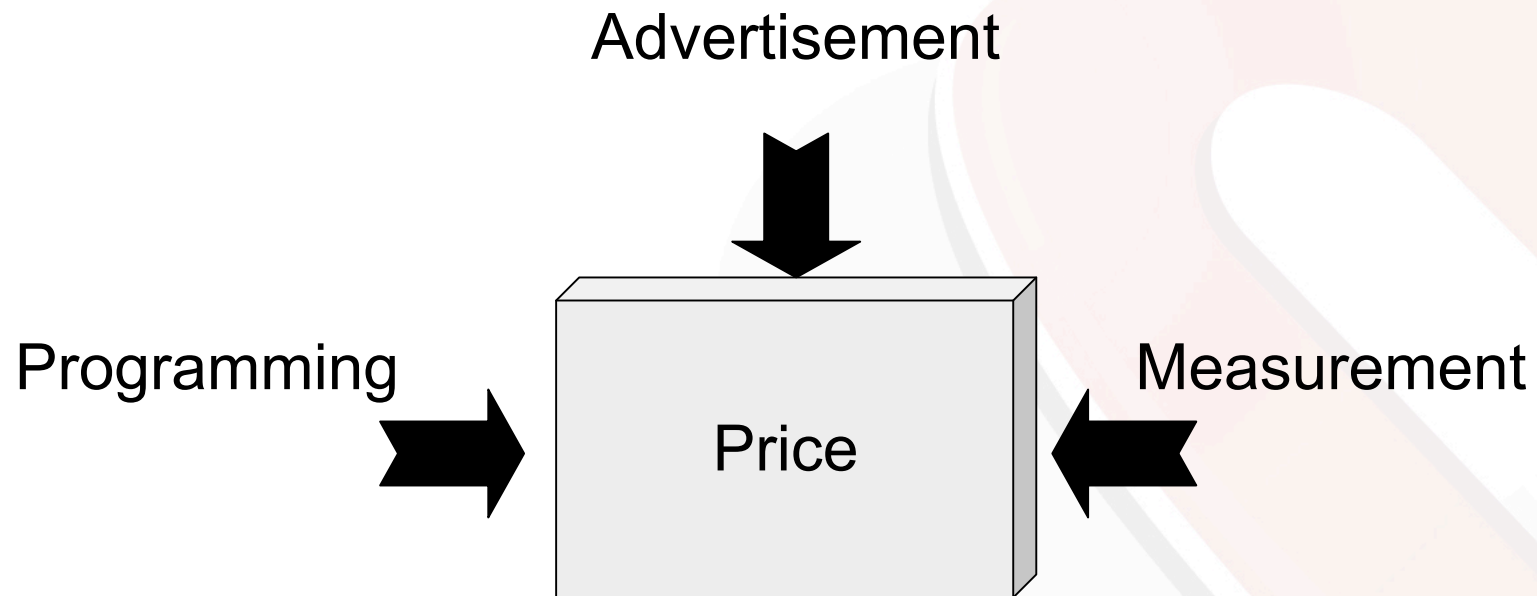

trying to place an ad online and not knowing the audience?

trying to determine communication policy and not knowing how online viewership compares to Radio and TV?

trying to understand what is happening to your brand online and not knowing how many people are influenced by the videos?

Determine TV Ad value

It wasn't always that way

H.M. Beville JR

“It is difficult to imagine a successful system of free commercial broadcasting without audience rating as feedback. The ratings report the size and composition of the audience that is reached by a given program, station, or schedule of commercial announcements. These data are crucial to the activities of broadcasting management, sales representatives, program producers, advertisers and their agencies, writers, performers, and their agents.”

Online Audience Measurement

Web Analytics

- Ad campaign conversions
- Search engine referrals effectiveness
- Exit analysis
- Composition of the audience

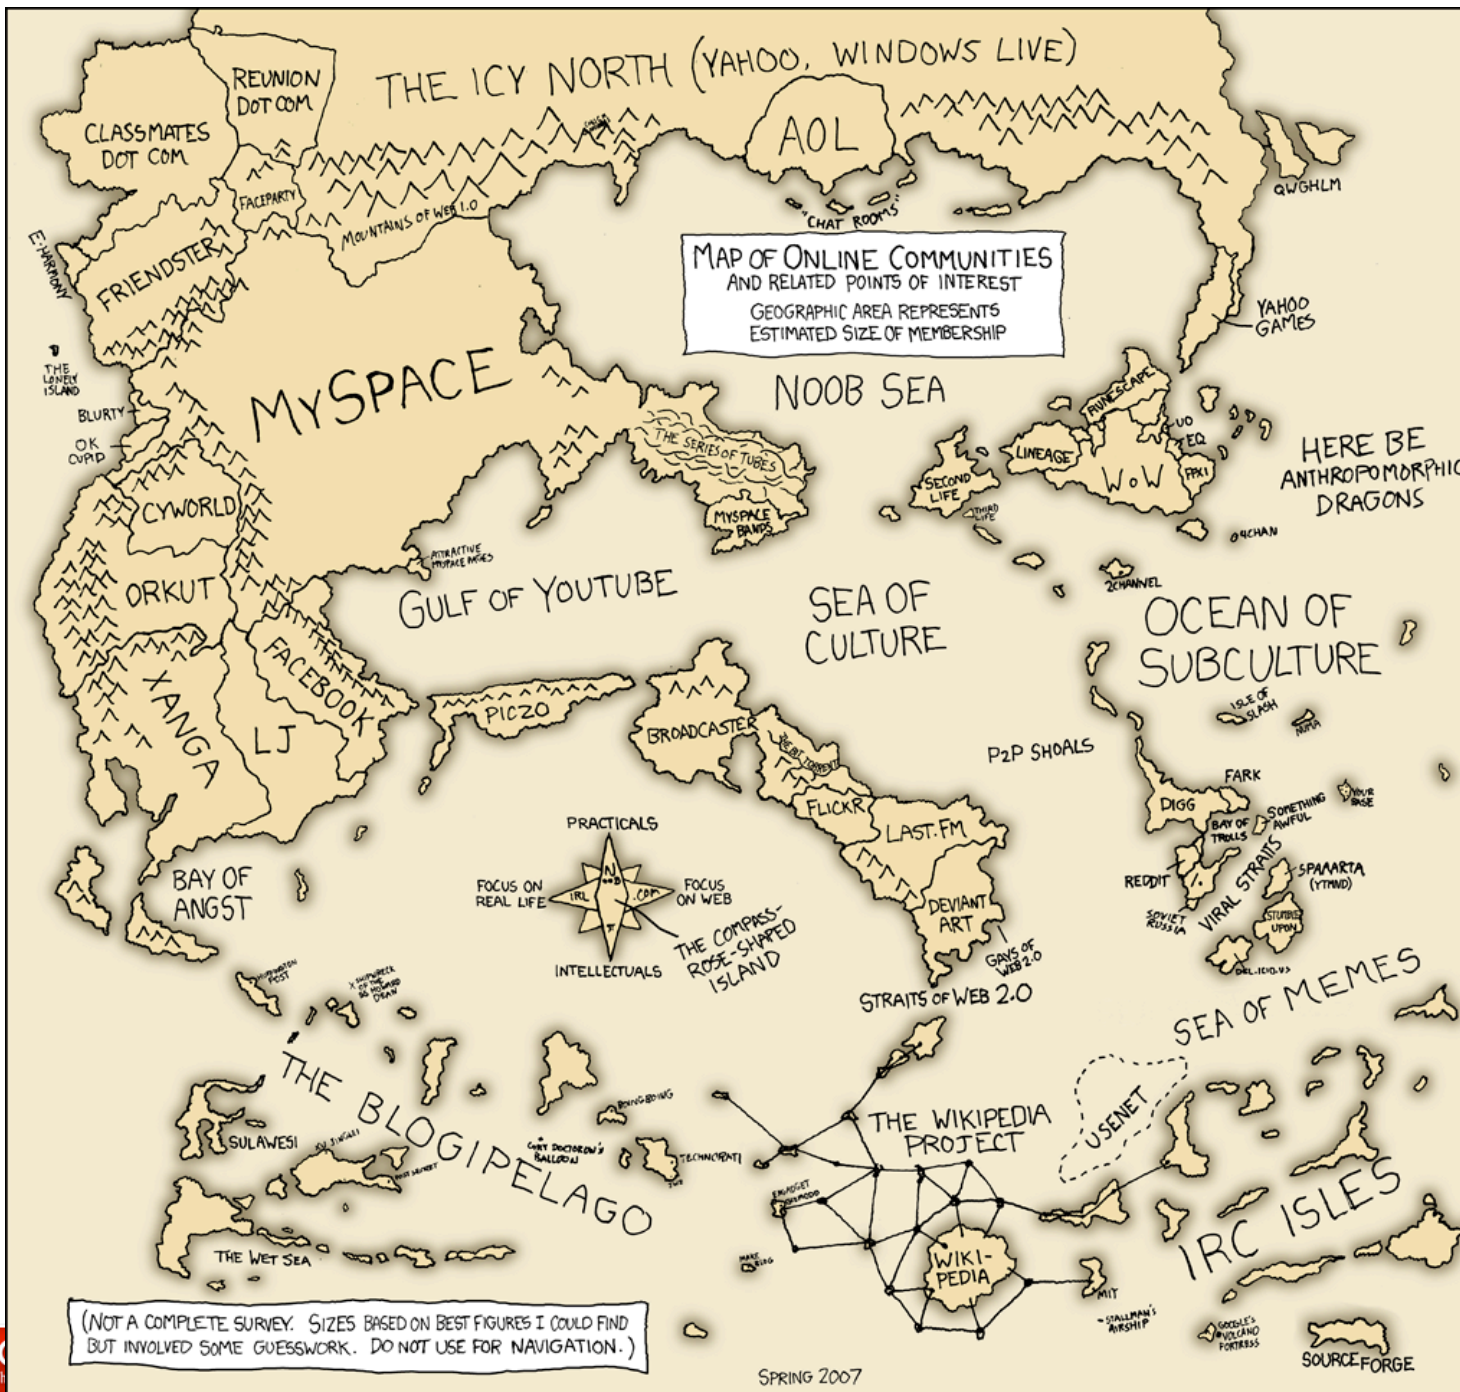

Online Audience Measurement

Approaches:

- On-site metrics
 - Web server log files
 - javascript hooks
- Off-site metrics
 - Panels
 - ISP network logs

Video Communication Types

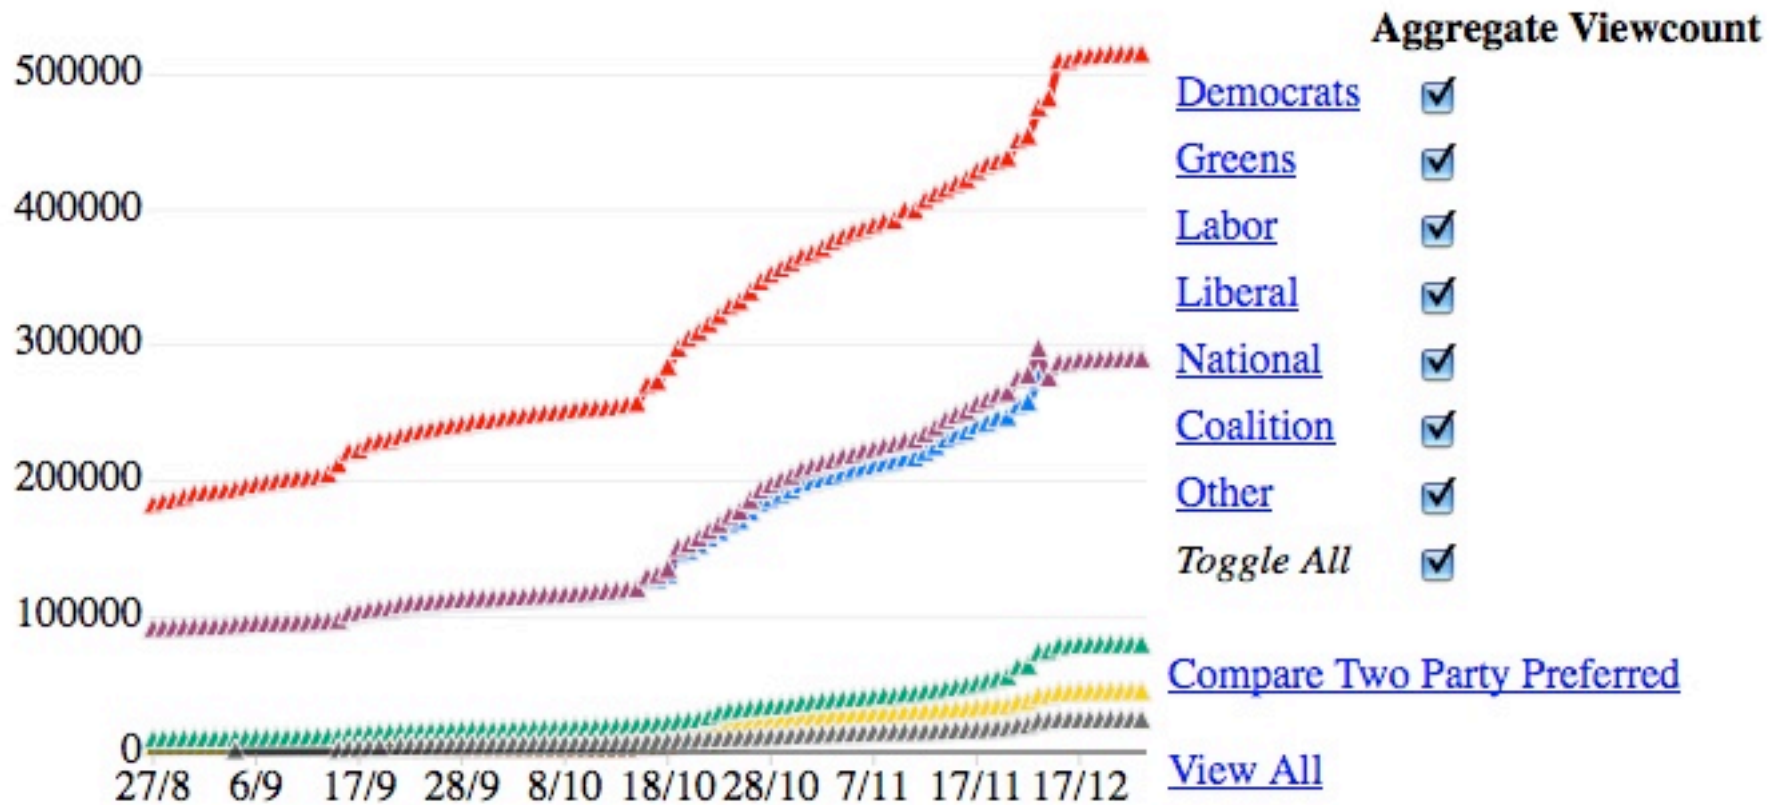

- Live interactive video, e.g. skype
- Video streaming, e.g. streaming of conferences
- P2P video distribution, e.g. bittorrent
- Social video publication, e.g. YouTube, MySpaceTV, Dailymotion

Video Metrics Approaches

- On-site video use: measurement of user interaction, e.g. VisibleMeasures, Omniture, Ooyala.
- Off-site video use on social video sites, e.g. TubeMogul, Vqence VQmetrics.
- Video spread on forums, blogs and other social networking sites; e.g. Vidmetrix.

Example from Vquence

A need for Standards

What is a “view”?

- A video started?
- A video fully viewed?
- A video played at least 3 sec?
- A video more than 50% viewed? 75%?
